AN ANSWER.

We called on the Auditor-General yesterday and asked him if the statement in the *Gazette* that the Government was raising funds under the act of 1872 was correct. His reply was, "No, I had that act repealed on 27th September, 1876." We then asked him if it was a fact that the Government was borrowing under some other act than that of 1882. His reply to that was, "I am not Minister of Finance now, the gentleman who is honored by that position could give you all the information you require on financial matters!"

COMPLIMENTARY CONCERT.

On Wednesday evening the Band gave another of their enjoyable concerts in honor of the Captains and officers of the Ships-of-war now in port. Notwithstanding the inclemency of the weather and the strong gale large numbers assembled to hear it, and loudly applauded each number. The following was the programme:

March.....Kalakaua
Overture.....Light Cavalry
Gavotte.....Stephanie
Selection.....The Life for the Czar
PART 2.
Medley.....German Songs
Waltz.....Thine Alone
Quadrille.....University Songs
Star Spangled Banner, Russian
Hymn, Watch on the Rhine,
HAWAII HONOLULU.

SHIPPING NOTES.

The bk. St. Lawrence will be due in the mouth of June with a load of coal, consigned to Wilder & Co.

Heavy gales have been reported during the early part of this week as blowing outside. The Captain of the *Hesperian* thought at one time, her masts would be blown out of her.

The *Kalakaua*, Capt. Miller, sails on Monday next for San Francisco. The bark W. H. Almy, Capt. Freeman, arrived yesterday, 18 days from San Francisco.

The *Waimanalo* brought 310 bags sugar, 110 bags rice, and 16 bbls molasses.

The *Gazette*, in its last issue, shows a lamentable want of knowledge of political history, when it says, "At the coronation of Alexander III. were present the most distinguished men." &c. We admit the fact, but the *Gazette* ought to remember that was prior to the "dynamite age." No country that values her public men would dream of sending them on such service now-a-days.

LOCAL & GENERAL ITEMS.

Go and see the fine flowers, &c., Lyons & Levey will sell at 12 noon.

A Pigeon shooting Match at Kalihi is proposed for to-morrow.

We learn about 5,000 tons of coal are now on the way to these islands from Australia.

LYCAS & Johnson have received some new goods by Suez. They will open them to-day.

Our thanks are due to J. W. Robertson & Co. for files of papers by all the late mails.

The Band has done an extra amount of work this week and we have had an extra amount of pleasure in consequence.

It was rumoured in town yesterday that three bodies of Chinamen had been thrown overboard from the *Madras*, the night before.

Work on the foundations of Campbell's new block is finished, and the first stratum of brick work has been laid.

PEOPLE need not get frightened that small-pox will get abroad in the town, as every precaution necessary is being taken.

Why were so many barricades built on Queen street yesterday morning? They surely weren't all needed to allow work to be done on the roads.

THE Chinamen at the Immigration Depot at Kakaako were most of them shipped yesterday. Strings of them were to be seen passing up the town.

YESTERDAY the balance of Chinamen from the *Glenelg* (some 600) were landed at the Kahakaalana Quarantine Grounds. No signs of ill health are observable amongst them.

We believe there is no law which authorizes the luns of a gang of prisoners to hit them or administer corporal punishment to them at any time, and yet this was done on Queen street yesterday morning. It ought to be looked into.

We are requested to announce that the rehearsal of the Amateur Musical Society announced for this evening, has been postponed until Monday evening, when a full attendance of members is requested.

In all districts of the town we find evidences that the building trade is in a brisk condition. New buildings are just being started while others are just being finished. Shops seem to be the most popular form of building. The only puzzle now, is, who is to occupy them all?

THE captain of the *Madras* yesterday asked the Board of Health to reconsider their resolutions and permit him to land passengers in quarantine. The Board, however, refused to do so, and still hold to their former determination, not to allow any of them to land.

WM. HARBOTTLE, whose death was reported in our columns yesterday, was the only Brigadier-General in the Hawaiian Army. He was also captain of the first Hawaiian brig-of-war, the *Kai*. Both these appointments were conferred on him in the reign of Kamehameha III.

It was reported yesterday that there was a case of small-pox in town, and another in the Quarantine grounds, both Chinese patients. We were unable, however, to get any verification of it last night, and so far as we can find out there is not the slightest foundation for these rumours. People ought to be prosecuted who raise such fearful alarms.

By files received by the Australia we see that difficulties have occurred between the New Zealand Government and a section of the Maories, over an attempt made by the Government to explore a certain portion of the interior. Finally the greater portion of the *Ngatimaniapoto* tribe allowed the exploration, but the dis-

satisfied ones captured the exploring party and only gave them up when compelled by the balance of the tribe. Since then the troops have captured 23 of the rebellious natives, and they are now awaiting trial. An outbreak was feared at first.

The *Alta*, of March 16th, says: "The Hall Brothers are building a steamer 160 feet long. Her decks are now being put in, and she will come here for her boilers and machinery."

YESTERDAY Captain Wolters, of the bark C. R. Bishop, met with a serious accident. He had to move his vessel from her moorings to make room for the *Janet* Court, and was accompanying Captain Fuller along Allen & Robinson's wharf to be shown where his vessel was now to be moored. Captain Fuller was walking a pace or two in advance, when, suddenly, without any warning, and from no visible cause, five pieces of lumber, 10x12, fell down on Captain Wolters and broke his left leg, just above the knee. Dr. Meyer, of Kauai, was immediately sent for, and with the assistance of the two doctors of the German man-of-war, fixed his leg so that he could be moved. He was taken to the residence of Mr. Bolte, at Waikiki, where he now is under the care of Dr. Brodie. At last accounts he was progressing favorably.

Something for Everybody—a new discovery, The Magnesio-Calcite Fire Proof Safes,

Jewel Cases and Bond Cases.

At a test of the fire proof qualities of the Magnesio-Calcite, held on the sand-lot near the City Hall, San Francisco, Nov. 27th, a pile of about a cord of pitch-pine wood was prepared, and five gallons of tar poured over it. A small iron chest, with a 1 1/2 inch lining of Magnesio-calcite was placed in the centre of the pile and the mass set fire to. After the chest had been kept at a red heat for an hour, it was taken from the fire, cooled with water, and opened, and the contents, consisting of papers and circulars, were found in a perfect state of preservation, being not at all discolored, only slightly warm, and having a trifling smell of smoke.

We, the undersigned, were present at the above test, and saw the box opened, and we certify to the perfect preservation of its contents. The entire test was perfectly satisfactory to us. H. L. DODGE, (of Dodge, Sweeney & Co.); C. H. LATON, and others.

A public test of the quality of these goods will be made at an early date.
